EXPERIENCE

Junior Accountmanager Intern

Sep. 2025 – Jan. 2026

Ereed

Rijswijk, NL

- Supported digital processes and assisted with IT-related operations and internal workflows within the organization
- Analyzed operational processes and client communications to identify workflow optimizations and improve overall efficiency

Sales Representative

Feb. 2026 – Aug. 2026

KISS Marketing & Sales

Rijswijk, NL

- Executed commercial campaigns and direct client outreach using structured sales pitches under target pressure
- Developed strong communication skills, objection handling, and customer-focused problem solving

Crew Member

Feb. 2025 – Mar. 2026

McDonald's

Den Hoorn, NL

- Worked in a fast-paced, highly structured environment focusing on quality assurance, speed, and cross-functional teamwork
- Maintained strict hygiene standards and optimized order processing during peak operating hours

Junior Accountmanager Intern

Sep. 2024 – Jan. 2025

Daly Verhuizingen

Rijswijk, NL

- Collaborated with the sales team to translate client requirements into tailored logistical solutions
- Participated in client consultations and maintained accurate customer records in the CRM system

Store Employee

Jun. 2023 – Dec. 2024

Jumbo Supermarkten

Wateringen, NL

- Ensured optimal customer experience and managed inventory processing in a collaborative team setting

PROJECTS

Personal Developer Portfolio | *Next.js, Tailwind CSS, Vercel, Cloudflare*

Oct. 2026

- Engineered a modern, responsive software engineering portfolio website to showcase technical projects and skills
- Implemented automated CI/CD pipelines via Vercel for continuous deployment directly from GitHub commits
- Configured Cloudflare DNS and custom Email Routing infrastructure for a professional domain (mohammedi.dev)

SPOT – Civic Issue Reporting App | *HTML, CSS, JavaScript, Git, Agile*

Sep. 2026

- Designed and prototyped a municipal reporting app enabling residents to submit infrastructure reports with photo attachments and automatic GPS location in under 15 seconds
- Built community upvoting mechanisms to aggregate local feedback and highlight high-priority maintenance tasks for municipalities
- Incorporated conceptual AI filtering logic to eliminate invalid submissions and prevent spam on municipal dashboards
- Collaborated in a 5-person Agile team following SDG 11 (Sustainable Cities) guidelines to deliver an interactive frontend prototype

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, SQL

Frameworks & Web: Next.js, React, Tailwind CSS

Developer Tools: Git, GitHub, Vercel, Cloudflare, VS Code, Windows
